

I'm not robot

Continue

Students create a Facebook style profile with this worksheet. It is in Word format so it can be edited to fit different subjects. Everwhere he says headlines can be edited. Some suggested uses include: authors, character novels, historical figures or Artist Profile. Even math concepts can be explained with their own profile. I'd like to hear how this page is being used. Tags: CharacterMain Idereading Comprehension Educatorstechnology Sunday, March 31, 2013 tips Facebook One of strategies to get students engaged and motivated to learn is to incorporate the materials that they can identify and use easily. Facebook models meet these criteria and have proven to be a real success in different educational settings. Again the goal is not Facebook per se but improve students learning using templates that have the look and feel of this popular social networking site. There are a variety of ways to use these templates with your students: you can give students create historical face profiles to add pictures and biographic information to the different sections of the template. Some teachers have students pose as authors and/or historical characters and then create entries as if they were following figures. In a one-2 settings student can work on them separately before they print and share them with the entire class. You can also print empty Facebook templates with the hands of your students hand-written them. Only your imagination limits what you can do with them. Here are some of the most popular Facebook templates available for free. Check them out below and if you know of any other similar resources, please share them with us in the comments form below.
